NSSE 2022 Respondent Profile

About This Report

The *Respondent Profile* presents both student- and institution-reported demographic information, allowing you to examine similarities and differences between your students and those at your comparison group institutions. This report uses information from all randomly selected or census-administered students. The display below highlights important details in the report to keep in mind when interpreting your results. For more information please visit our website (**nsse.indiana.edu**) or contact your NSSE Project Services team.

SAMPLE

1. ***Class level:*** As reported by your institution.

2. ***Item numbers:*** Numbering corresponds to the survey facsimile available on the NSSE website.

3. ***Item wording and variable names:*** Survey items are in the same order and wording as they appear on the instrument. Variable names are included for easy reference to your data file and codebook.

4. ***Response options:*** Response options are worded as they appear on the instrument (except where abbreviations are used for formatting purposes).

5. **Count and column percentage (%)**: The Count column contains the number of students who selected the corresponding response option. The column percentage is the weighted percentage of students selecting the corresponding response option.

   Note: Column percentages are weighted by institution-reported sex and enrollment status. Comparison group percentages are also weighted by institutional size. Counts are unweighted and cannot be used to replicate column percentages. For details visit: **go.iu.edu/NSSE-weights**
