## Texas Lutheran University Police Department Safety Alert

Early this morning Texas Lutheran University sent out E2 Campus alerts to our campus community advising everyone to refrain from moving around the campus. These messages were sent out as a precautionary measure due to an incident in which Seguin Police Department chased a subject who was last seen running onto our campus at Court and Fritz Street. It is my opinion that this subject ran from Seguin Police Department and was only briefly on our campus. It should also be known the subject was not considered a threat to others, but a threat to himself. At no time did this person enter a building on our campus and as stated earlier we believe he simply fled through our campus to avoid being contacted by Seguin Police Department. TLU Police Department, Seguin Police Department and Guadalupe County Sheriff's Department officers conducted an extensive search of the campus and the suspect was not located.

I would like to thank everyone for their cooperation that made our jobs much easier earlier this morning. If you have not signed up for E2 Campus yet I strongly recommend that you do so as soon as possible. Again, thank you for your cooperation and feel free to contact me if you have any further concerns.

Gary Hopper  
Chief of Police
